

**DOWNTOWN IMPROVEMENTS PHASE IIIC
KING STREET – EAST AND WEST SIDE
IFB No. 10304-FY15-23
Addendum #3
May 13, 2015**

1. Questions and Answers:

Question 1: The (8) Pedestrial Poles listed on line 91 in the bid documents: are these standard poles and bases or decorative ones? There is no mention in the proposal, and the plans (sheet T-401) are unclear. Likewise, what style of mast arm is being requested?

Answer 1: The Pedestrian Signal Poles are standard Pelco spun aluminum “Black powder coated 4 ” poles with mounting detail per sheet T401, “Pedestrian Pole Detail”. Mounting is similar to Pelco part# PB5304-GLV. Existing mast arm and foundation is to remain per plan.
