

Additional Yard Waste Collection Days Run May-Sept 2016

Additional yard waste days began the first week of May, 2016 and run through the last week of September, 2016.

Yard waste must be in brown paper bags or loose in a container with a "Yard Waste" sticker on the can, facing the street. CSI cannot collect yard waste in plastic lawn bags - material is taken to a facility for composting and they do not accept plastic bags.

Yard waste must be at the curb before 6AM the day of collection. CSI cannot return to collect material that has been set out late. Late set-outs will be collected on the next yard waste collection day.

Small branches may be collected by CSI with yard waste. Branches must be less than 4' long and 1/2" in diameter. CSI cannot take larger branches, roots balls, tree stumps or root balls and whole shrubs.

Branches must be bundled into piles no more than 12" high and tied with twine or rope. CSI will not collect loose branches at the curb with yard waste.
