

**Fertilizer isn't good fish food ...
Please use caution when applying
fertilizer, pesticides and herbicides.
These chemicals can get washed
down storm drains with rain—the
effects downstream can be severe!**

For more information on storm drain marking or
water pollution prevention, please call 703-771-2790
or e-mail publicworks@leesburgva.gov

Pet waste contains harmful bacteria and can spread disease. It also contaminates water resources when it's carried downstream through the storm sewer system.

Scoop the poop every time!

Did you hear?
All the really *COOL*
people pick up after
their pets!

For more information on storm drain marking or water pollution prevention, call 703-771-2790 or e-mail publicworks@leesburgva.gov

**I don't throw trash
in your family room.
Please don't throw
yours in mine!
Make sure your
waste finds its
proper place!**

For more information on storm drain marking or
water pollution prevention, please call 703-771-2790
or e-mail publicworks@leesburgva.gov

Leesburg 

Pssst! Did you know
it's important to
scoop the poop –
even at home?

Pet waste contains
harmful bacteria
that can make
humans sick.
When it rains,
that same
bacteria gets
washed down-
stream and
pollutes waterways!

For more information on storm drain marking or
water pollution prevention, please call 703-771-2790
or e-mail publicworks@leesburgva.gov

A close-up photograph of a fish's face, showing its eye and scales. The fish is looking towards the right. The background is a soft, out-of-focus green and blue.

*I don't swim in your living room.
Please don't dump trash in mine!*

Litter and debris can get washed into storm drains and end up downstream in creeks, ponds and rivers. Please make sure your trash makes it into the can!
